EXPERIENCE

Bynaric Systems Pvt. Ltd
Software Developer
Baner,Pune 12/2025 - Present

Building production-ready web applications using React, Node.js, Express,PostgreSQL and TypeScript

- Developed full-stack applications, implemented JWT authentication, built REST APIs

Allianz technology
Apprentice
kharadi 01/2025 - 08/2024

Apprenticeship program focused on developing practical knowledge of web development mainly focused on Angular JS

- Apprenticeship at Allianz technology

Rubixe
Intern
Remote 09/2024 - 01/2025

Internship focused on developing analytical skills in data analysis

- Internship at Rubix

SKILLS

Languages
JavaScript, TypeScript, Java, Python

Frontend
React, Redux, HTML, CSS

Backend
Node.js, Express, REST APIs

Database
PostgreSQL, MySQL, MongoDB, Drizzle ORM

Authentication and Security
JWT, bcrypt, Cookies

SUMMARY

Dedicated Computer Engineering graduate with hands-on experience in full-stack web development, data analysis and software development. Skilled in React, Node.js, Express, PostgreSQL, TypeScript, Docker, and building secure REST APIs and file management modules. My education and projects demonstrate a strong commitment to leveraging technology for practical applications. I continuously. strive to enhance my skills and contribute effectively in a challenging role that supports organizational success.

PROJECTS

Online Exam Evaluation System 2026 - Present

Developed a platform to create, upload, preview, update question papers and upload scanned answersheets for evaluations.

- Built admin and agent modules with protected routes and role-based access.
- Added subject code registration, faculty onboarding, institute onboarding, and validations.
- Tech Stack: React, Node.js, Express, PostgreSQL, Drizzle ORM, JWT, Docker, TypeScript

Purchase Pattern Analysis 10/2024 - 12/2024

A project which analyzes customer purchase patterns using Market Basket Analysis

- Utilized data visualization tools to create actionable insights and present findings in a clear, visually engaging format for stakeholders, driving informed decision-making.
- Conducted Market Basket Analysis (MBA) to explore and analyze customer purchase patterns.

SKILLS

Data & Others

Excel, Tableau, Power BI, Docker, Git

KEY ACHIEVEMENTS

- **Data Analyst Certified**
  Completed two certifications in data analysis.
- **Angular Js developer**
  Completed 3 months of learning Angular JS framework
- **Enhanced Mobile Botnet Detection**
  Reduced botnet detection errors by 30% using CNN.

PROJECTS

A deep learning approach for mobile botnet detection 08/2023 - 05/2024

A project focused on mobile botnet detection using deep learning techniques

- Developed a botnet detection system utilizing Convolutional Neural Networks (CNNs) and a hash-based approach.
- Achieved a 97.2% accuracy rate in distinguishing between botnet and benign applications.

Credit Card Fraud Detection 09/2022 - 03/2023

An AI project aimed at detecting credit card fraud

- Developed a machine learning model for credit card fraud detection, enhancing fraud detection rates by 22% within six months.
- Designed a web application demonstrating face recognition capabilities.

Attendance System using Face Recognition 06/2021 - 06/2022

An attendance system that utilizes face recognition technology

- Developed a Python-based face recognition system that captures video from a webcam, identifies individuals and records attendance by logging student names along with timestamps in a CSV file.
- Designed a web application demonstrating face recognition capabilities.
